appeared at Naples interested Dr. Wheeler greatly when he learned of it yesterday. He was in Naples about three weeks ago, and there was no sign three weeks ago, and there was no sign of cholera there then. In regard to its appearance he said: "I certainly be-lieve that it was imported, and under the present arrangements that it will be held in check."

These arrangements include the quarantining of all intending immigrants for five days in a building recently erected in the rear of the city Until the erection of this quarantine station there were no protective measures whatever, and in this respect Naples was far behind ports like Hamburg

In Hamburg and Bremen he found that every precaution was being taken to prevent the appear-ance of cholers and to hold it under control in the event of its appearance. He found that the steamship companies were protected by a caroful inspection of all steerage passengers booked on their vessels, and that the sanitary conditions of the etities was founded of that of leaf very far ahead of that of last year.

There have been a number of case of cholers in Marseilles, but these were of a aporadic nature, from an attack of which Marseilles has never been free There are few, if any, immigrants ar riving from Marseilles, and the only importation to be feared is that of rags The rags experted from that place to America, however, are thoroughly dis-infected, before they are shipped, un-der the supervision of the American convol. whose certificate is required to this effect

It is evident, therefore, that the Siamese govern-ter much natch up as best as it can ment must patch up as best as it can most of its differences with France. In the territorial arrangements, how-ever, Great Britain will have a voice. The exact nature of her demands cannot be ascertained before France shall specify more particularly than she has specified in her ultimatum, the boundaries of the territory to be brought under French control. The ultimatum is notably indefinite as regards this point. Even Siam is still to the dark, and her efforts to obtain light from M. Pavits bids fair to fail for several days. The vital part of the French demand

for territory may include the whole left bank of the Melcong river. This territory Siam will not surrender

M Pavie, minister resident, handed France's ultimatum to Prince Deuy-wongse, Siamese minister of foreign affairs, on Friday. At the same time Bangliok to go abourd the gunbast Forfeit. The blockade of the Siamese, he added, would be declared at once. The opinion is general here that Siam will offer to pay the indemnity demanded by France It is doubtful, however, that the Evench claims to the however, that the French claims to th her moral or material support.

WARNING.

-Let Us Protect Ourselves. ROOM . MOULDINGS Read, Consider, Act.

You will find the above cut on every box of Union Made Cigars and is a guarantee in itself.

The number of cigars consumed in Decatur is enormous. If made in the city would give employment to, at least, 150 or 200 Cigarmakers—whereas, at the present time, only 40 are employed. Estimating their earnings to be twelve dollars a man per week, the sum of \$2,000 or \$2,500 would be paid to them in weekly wages, all of which would remain in the city It is a well-known fact that Decatur cigars are not inferior in

quality to cigars made in other places. Do not hy state prison or tenement house work, sending the money out of town, but patronize home trade and thereby indirectly benefit yourselves.

When purchasing cigars ask for UNION LABEL CIGARS, and

see that the Cigarmakers' Union Label is on the box, the cut of which you will find above. Smokers, do not be deceived by letting your dealer palm off a cheap tenement house or prison made eiger but insist on having the Union Label Cigar, and take no other. Jaly 18-d6
